

Natures Inspiration

It's so beautiful
It's so wonderful
It's so magical
It's a miracle

The beauty I see from the Autumn leaves inspires me to sing
in joy and celebration of the magical miracle of natures scientific art
Red so deep, Yellow so Vivid, Green so Rich, Orange so Vibrant -
Colours expressed joyfully and freely painted on the canvas of the living earth
Replenishing and recycling, releasing and nourishing, nature wastes not a thing

It's so beautiful
It's so wonderful
It's so magical
It's a miracle

I give thanks on this new day for the eyes that bless me with this sight,
for the heart that beats and also feels, functioning and experiencing,
harmonising and guiding providing a rhythm for this great dance of life.
The breath of love flows through my veins infusing me with vitality
and connecting me to the source of all things every time I inhale and exhale.

It's so beautiful
It's so wonderful
It's so magical
It's a miracle

Sunlight rays salsa across ripples in the water gently tickled into being by a playful wind.
Flowers proudly display a myriad of colours and release sweet scents into the breeze
whilst crowds of black birds gather amongst the tops of trees and hold council meetings
before migratory flight ushers them in huge flocks across the sky – what a sight!
I'm at peace, at one with the flow of life as I watch and participate in natures delights

It's so beautiful
It's so wonderful
It's so magical
It's a miracle

A full moon rises behind tree laden green mountains and casts a silvery light
upon the landscape of splendor. Night sounds create a chorus and symphony
of musical delight and we gather around a outdoor fire to rejoice in the mystical
wonder of natures perfect balance. Sweet equilibrium as day follows night,
and as the celestial bodies dance around our fragile blue planet I sing in celebration

It's so beautiful
It's so wonderful
It's so magical
It's a miracle
